Fuzhou Port is located at the center of the Fujian coastline along the Taiwan straits. Connected to the hinterland via excellent railway and road networks, it is well-positioned as a major container hub port to support ongoing development of industries and hinterland investments in South-eastern and western China.

PSA currently operates three container terminals in Fuzhou: Fuzhou Qingzhou Container Terminal (FQCT), Fuzhou International Container Terminal (FICT) and Fujian Jianguyin International Container Terminal (FJCT). The terminals are managed under Fuzhou Container Terminals (FCT), leveraging the strengths of its partners PSA and Fuzhou Port Group to create greater service excellence for its customers.

FCT-Jianguyin – comprising FICT and FJCT – owns concessions for a continuous stretch of five linear berths at Jianguyin Port district. FCT-Jianguyin is capable of handling all mega container vessels plying the world’s maritime trade routes today, with connected services to the United States, South America, South Korea, Taiwan, Southeast Asia, Middle East, West & South Africa, Hong Kong, Europe, the Mediterranean; domestic and feeder services.

FQCT is the designated terminal for direct shipping links between mainland China and Taiwan, with weekly shipping services to Hong Kong, Japan and Taiwan. ■
